< REMOVAL AND INSTALLATION >

2. Remove glove box assembly.
   1. Remove glove box assembly fixing screws (A).
   2. Open glove box lid.
   3. Remove glove box assembly fixing screws (B).
   4. Pull back glove box assembly.
   5. Disconnect harness connector.

   : Pawl
   : Metal Clip

3. Disconnect harness connector (A) of front passenger air bag module.
4. Remove front passenger air bag module mounting bolt (B).

5. Remove selector lever knob. Refer to TM-172, "Removal and Installation".
6. Remove console finisher assembly.
   1. Put front seat to rearmost position.
   2. Pull console finisher assembly upward to disengage from center console assembly.
   3. Disconnect harness connectors.

   : Clip
   : Pawl

7. Remove instrument center finisher RH.
1. Pull the instrument center finisher RH lower side, and then disengage the fixing clip.

2. Pull back instrument center finisher RH, and then disengage metal clips.
3. Disengage instrument center finisher RH fixing pawl from instrument panel assembly.

8. Remove front body side welt RH. Refer to INT-19, "BODY SIDE WELT : Removal and Installation".
9. Remove front pillar garnish RH. Refer to INT-18, "FRONT PILLAR GARNISH : Removal and Installation".
10. Remove speaker grille RH.
    1. Disengage speaker grille RH fixing pawls with remover tool (A).
    2. Pull up speaker grille RH.
    **CAUTION:**
    Apply protective tape (B) on the part to protect it from damage.

11. Remove squawker RH. Refer to AV-215, "Removal and Installation".
12. Remove front defroster grille RH. Refer to VTL-10, "FRONT DEFROSTER GRILLE : Removal and Installation".
13. Remove front defroster grille LH. Refer to VTL-10, "FRONT DEFROSTER GRILLE : Removal and Installation".
14. Remove instrument center finisher LH.
1. Pull the instrument center finisher LH lower side, and then disengage the fixing clip.

2. Pull back instrument center finisher LH, and then disengage metal clips.
3. Disengage instrument center finisher LH fixing pawl from instrument panel assembly.

15. Remove console rear finisher.
   1. Put front seat to frontmost position.
   2. Pull back console rear finisher with remover tool (A).
   3. Disconnect harness connectors and harness clips.

   CAUTION:
   Apply protective tape (B) on the part to protect it from damage.

16. Remove center console assembly.
   1. Remove centre console assembly rear side fixing screws (A).

   2. Put front seat to rearmost position.
3. Remove center console assembly front fixing screws (B).

4. Lift up center console assembly back side, and then remove center console assembly.

17. Remove front body side welt LH. Refer to INT-19, "BODY SIDE WELT : Removal and Installation".
18. Remove front pillar garnish LH. Refer to INT-18, "FRONT PILLAR GARNISH : Removal and Installation".
19. Remove speaker grille LH.
   1. Disengage speaker grille LH fixing pawls with remover tool (A).
   2. Pull up speaker grille LH.
   **CAUTION:**
   Apply protective tape (B) on the part to protect it from damage.

20. Remove squawker LH. Refer to AV-215, "Removal and Installation".
21. Remove instrument lower panel LH.
   1. Remove food opener lever fixing bolts. Refer to DLK-221, "Removal and Installation".
   2. Pull back instrument lower panel LH, and then disengage the clips and pawl.
   3. Disconnect harness connectors and aspirator duct.

22. Disconnect meter control switch harness connector (A).

23. Remove driver air bag module. Refer to SR-11, "Removal and Installation".
24. Remove steering wheel. Refer to ST-30, "Removal and Installation".
25. Remove steering column covers.
   1. Remove steering column cover fixing screws (A).
   2. Pull up steering column upper cover (1), and then disengage steering column upper cover fixing pawls.
   3. Remove steering column upper cover.
   4. Pull down steering column lower cover (2), and then disconnect ADP steering switch connector (with ADP).
   5. Remove steering column lower cover.

26. Remove combination switch. Refer to BCS-83, "Removal and Installation".
27. Remove spiral cable. Refer to SR-14, "Removal and Installation".
28. Remove cluster lid A.
   1. Pull back cluster lid A, and then disengage the clips and pawls.
   2. Disconnect harness connectors.

29. Remove combination meter. Refer to MWI-79, "Removal and Installation".
30. Remove upper ventilator grille.
   1. Disengage upper ventilator grille fixing clips and pawls with remover tool (A)
   2. Pull toward the arrow direction.
   **CAUTION:**
   Apply protective tape (B) on the part to protect it from damage.

31. Remove center speaker. Refer to AV-219, "Removal and Installation".
32. Remove cluster lid C.
   1. Remove cluster lid C fixing screws (A).
   2. Pull back cluster lid C, and then disengage the pawls and metal clips.
   3. Disconnect harness connectors.
33. Remove cluster lid C lower.
   1. Disengage cluster lid C lower fixing metal clips with remover tool (A).
   2. Pull back cluster lid C lower, and then disconnect harness connectors.
   **CAUTION:**
   Apply protective tape (B) on the part to protect it from damage.

   ![Image](image1.jpg)
   ![Image](image2.jpg)

   **NOTE:**
   When removing cluster lid C lower without removing center console.
   1. Disengage metal clips of lower side of cluster lid C lower using a remover tool (A).
   2. Disengage metal clips of upper side of cluster lid C lower using a remover tool.
   3. Pull back cluster lid C lower, and then disconnect harness connectors.

   ![Image](image3.jpg)

34. Remove AV control unit. Refer to AV-209, "Removal and Installation".

35. Remove cluster lid D.
   1. Remove cluster lid D fixing screw (A).
   2. Pull back cluster lid D, and then disengage the pawls and metal clips.

   ![Image](image4.jpg)

36. Remove front display unit. Refer to AV-210, "Removal and Installation".

37. Remove instrument panel assembly mounting screws (A) and bolts (B).
