2004 TL - Center Console Panel Removal/Installation

Special Tools Required

- KTC trim tool set SOJATP2014

NOTE:
- Use the appropriate tool from the KTC trim tool set to avoid damage when prying components.
- Take care not to scratch the front seat, dashboard and related parts.

1. Move both front seats all the way back.
2. Remove these items:
   - Center console rear section
   - Dashboard lower cover
   - Glove box housing
3. Remove the trim (A).
4. M/T model: Remove the insert panel (A) to release the hooks (B).
5. Remove the screws (A, B), and detach the clips (C), then remove the driver's console side cover (D) and passenger's console side cover (E).
6. Pull the center console panel (A) to release the pin (B), and disconnect the accessory power socket connector (C) and seat heater switch connectors (D).

7. Turn the center console panel (A) then lift it up and away from the dashboard.

8. Install the console panel in the reverse order of removal, and note these items:
   - Make sure each connector is plugged in properly.
   - Replace any damaged clips.
   - Push the clips and hooks into place securely.
2004 TL - Dashboard Center Upper Panel Removal/Installation

Special Tools Required

- Vent panel puller 07AAC-S3VA100

NOTE: Take care not to scratch the dashboard and related parts.

1. Position a vent panel puller (A) as shown on the upper panel (B).

2. Carefully pull one side of upper panel (A) partially out to release clips (B, C, D), then do the same on the other side. Disconnect the hazard warning switch connector (E) and audio-HVAC subdisplay-clock connector (F), then remove the upper panel.

3. Install the panel in the reverse order of removal, and make sure each connector is plugged in properly.
2004 TL - Center Console Rear Section Removal/Installation

Special Tools Required

- KTC trim tool set SOJATP2014

NOTE:

- Use the appropriate tool from the KTC trim tool set to avoid damage when prying components.
- Take care not to scratch the front seat, dashboard, and related parts.

1. M/T: Lower the shift lever boot (A) to release the hooks (B) from the boot, then remove the shift knob (C).

![Image of shift lever boot and shift knob]

2. Detach the clips (A, B), and release the hooks (C) by carefully inserting a trim tool between the HVAC panel and the center console trim (D) and prying gently on both sides.

![Diagram showing fastener locations]

3. Open the console box lid (A) then remove the console mat (B) and screws (C, D).

4. Slide the rear section of the center console (A) rearward to release the hooks (B).

5. Lift up the rear of the console (A). Release the harness retainer clip (B) from the air duct, and disconnect the accessory power socket connector (C) and the light bulb socket connector (D), and then remove the rear section of the center console.

6. Install the console in the reverse order of removal, and replace any damaged clips.
2004 TL - Audio-HVAC Display Module Assembly Removal/Installation

SRS components are located in this area. Review the SRS component locations, and the precautions and procedures before performing repairs or service.

**NOTE:**
- Put on gloves to protect your hands.
- Take care not to scratch the dashboard and related parts.
- Lay a workshop towel under the parts when working on them to protect the face panel from scratches or other damage.

1. Make sure you have the anti-theft codes for the radio and navigation system, then write down the channels for the XM radio's presets.
2. Remove the center console rear section and center console panel.
3. Remove the upper panel.
4. Remove the screws and bolts, then pull out the audio-HVAC display module assembly (A).
5. Disconnect the connectors (B) and antenna lead (C), then remove the audio-HVAC display module assembly.
6. Install the audio-HVAC display module assembly in the reverse order of removal, and note these items:
   - Make sure all connectors and antenna lead are secure.
   - Enter the anti-theft code for the radio, then enter the customer's XM radio channel presets, and set the clock.
   - If necessary, enter the navigation system anti-theft code.
