Removal and Installation

1. Remove the pivot arm.
   1. Release pivot arm nut cover.
   2. Remove and discard the pivot arm nut.
   3. Remove the pivot arm.

2. **NOTE:** Apply Threadlock to the new pivot arm nut.

To install, reverse the removal procedure.
3. Check the wiper pivot arm adjustment. For additional information, refer to [Wiper Blade and Pivot Arm Adjustment — Front](http://www.fordtechservice.dealerconnection.com/pubs/content/~WSYW/~MUS~LEN/21/SYW1G006.HTM) in this section.
Wiper Blade and Pivot Arm Adjustment — Front

1. Cycle and park the windshield wipers.

2. Verify that the RH and LH wiper blades are located at the specified position.

3. If not within specification, remove the pivot arms and reposition to the proper location; refer to Pivot Arm — Front.
