5. for next display in system
6. for previous display in system
7. to increase the volume
8. to decrease the volume
9. to dial a telephone number
10. to end a call
Following a completed A or B service the Mercedes-Benz Center sets the counter mileage to 10,000 miles (Canada: 15,000 km) and 365 days.

The counter can also be set by any individual. To do so:

Turn the electronic key in steering lock to position 2. To call up the trip odometer and main odometer, press button 3 or 4 on the multifunction steering wheel until the display appears.

Press button 5 or 6 until the FSS indicator appears.

Press button "R" on the instrument cluster for approximately 2 seconds.

The multifunction display will show the question:

"DO YOU WANT TO RESET SERVICE INTERVAL? - CONFIRM BY PRESSING R"

Press button "R" on the instrument cluster again, and hold until a signal sounds. The message "SERVICE INTERVAL HAS BEEN RESET" appears in the multifunction display.

The new service indicator is displayed with the reset distance of 10,000 miles (Canada 15,000 km).
