Subject: Intermittent Dead Battery or Battery Goes Dead Overnight (Replace Overhead Console Assembly)

Models: 2003-2005 Cadillac CTS  
2004-2005 Cadillac CTS-V, SRX

This bulletin is being revised to update the warranty information. Please discard Corporate Bulletin Number 04-06-03-003B (Section 06 -- Engine).

### Built Prior to the Following Production Dates:

<table>

</table>

**Condition**

Some customers may comment on an intermittent dead battery or of the battery going dead overnight.

**Cause**

This condition may be caused by the instrument panel brightness lever, located on the overhead console, being slightly engaged but not enough to turn on the interior courtesy lamps. The slightly engaged switch causes the Dash Integration Module (DIM) to cycle between active and inactive which wakes up other modules on the Class 2 data line. This causes the vehicle to remain active. The scan tool will not indicate that the switch is active.

**Correction**

Technicians are to replace the overhead console assembly with an newly designed part using the following procedure:
1. Remove the roof console. Refer to the Roof Console Replacement procedure in SI.

2. Remove the roof accessory switch console retainer assembly (3). Refer to the Sunshade Retainer Bezel Replacement procedure in SI.
3. Install a new roof accessory switch console retainer assembly.
4. Install the new roof console. Refer to the Roof Console Replacement procedure in SI.

**Parts Information**

**Important:** The roof console retainer assembly must be replaced when a new roof console accessory switch bezel is replaced.

GM bulletins are intended for use by professional technicians, NOT a “do-it-yourselfer”. They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
