Mass Airflow Sensor Replacement

The MAF sensor on this engine is attached to the throttle body assembly.

Removal Procedure

1. Disconnect the MAF sensor electrical connector.
2. Remove the screws holding MAF sensor to throttle body.
3. Remove the MAF sensor from the throttle body.

Installation Procedure

1. Carefully position the MAF sensor to the throttle body.
2. Install 3 screws holding the MAF sensor to the throttle body.
3. Connect the electrical connector.
