

Removal

Removing the center console

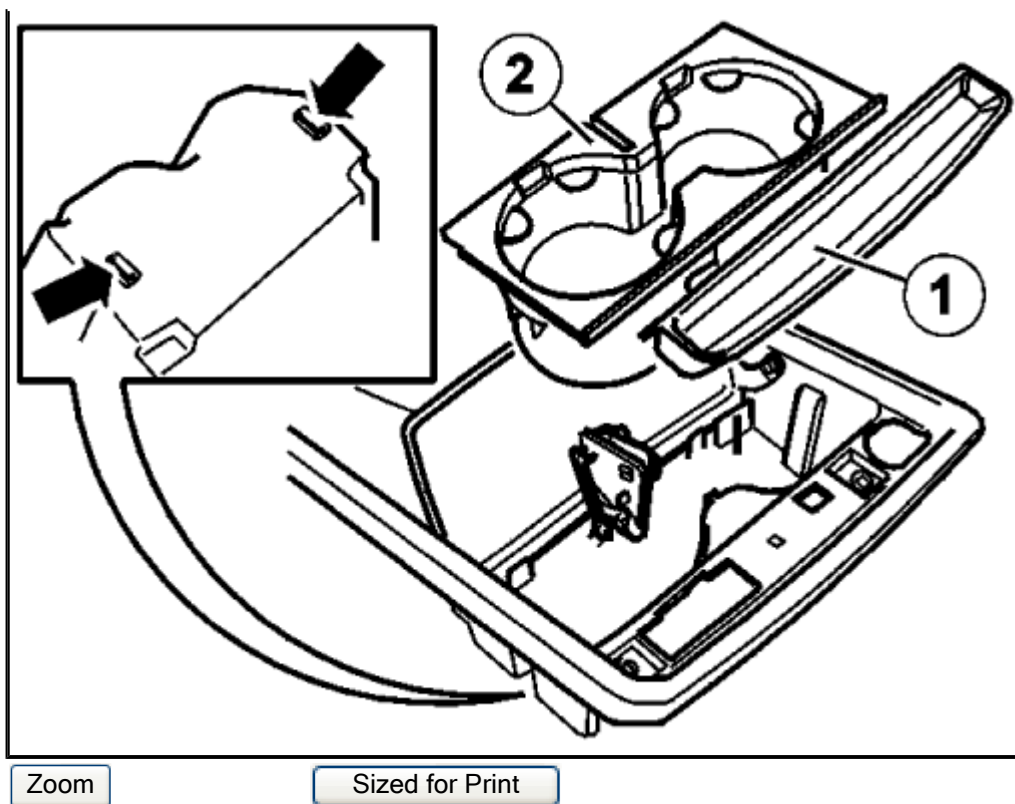

Zoom

Sized for Print

Remove the upper section of the center console.

Removing pen holder and mug holder

Remove the pen holder (1).

If the pen holder is bonded, replace using a new pen holder and clip mounting.

Remove the mug holder insert (2) by releasing the hooks on the underside of the center console.

Removing the cover

Zoom

Sized for Print

Move the arm of the mechanism as far back as possible.

Remove:

- the clip with the spring (2) by the cover mechanism
- the 2 clips (1) securing the cover to the center console
- the cover (3).

Replacing components

Replacing the lower section of the mug holder

Zoom

Sized for Print

If necessary, replace the mug holder housing.

Installation

Installing the panel

Zoom

Sized for Print

Install:

- the cover (3)
- the outer clips (1). The beveled part (2) of the clips must be facing up.

Installing the center mounting for the cover

Zoom

Sized for Print

Check that the internal hook on the spring is secured in the clip.

Align the arm of the spring with the cover. Install the clip (1) with the spring. The hooks (2) on the clip must be positioned vertically.

Installing the spring

Zoom

Sized for Print

Move the arm of the spring backwards so that the hook grips in the mounting under the clip.

Installing the pen holder and mug holder

Zoom

Sized for Print

Move the arm of the mechanism forwards.

Check the function of the cover.

Install the insert and the pen holder.

Installing the center console

Install the upper section of the center console.

Test all the functions that may have been affected
